CYNOSURE

Amico Yasna Pars (Pr.J.S.Co)

Amico Yasna Pars is considered as a leading company in the field of medical equipment in Iran. Although the company's field of activity includes a wide range of medical equipment, its main activities include ophthalmology equipment, vision care products and dermatology equipment.

Nearly 2 decades of experience and knowledge, expertise, scientific support and supportive presence in the medical community, has made Amico Yasna Pars one of the top companies in the country, so that many reputable brands in the field of medical equipment have the opportunity to work with this company. Amico Yasna Pars started its activity in 1381 and gained a valuable position in the country by acquiring the representation of reputable world renowned manufacturers.

VISION CARE

In the field of vision care products, Amico Yasna Pars is undoubtedly a leading company in Iran. From the time of "CIBAVISION", which was the pioneer and gold standard of quality in soft contact lenses, until later, when the great company "ALCON" acquired that company and added to its quality and quantity range, Amico Yasna Pars has always been the exclusive representative of Vision care products of "ALCON".

OPHTHALMOLOGY

In the field of ophthalmology, the remarkable cooperation with "JOHNSON & JOHNSON VISION" (which acquired the company "Abbott Medical Optics") positioned Amico Yasna Pars as a pillar quality partner with all major Ophthalmology centers. At the meantime, a broad spectrum of top quality products from reputable manufacturers like "GEUDER", "HUVITZ", "ALCHIMIA" and "OPTOS" helps us to bring full portfolio service to any need in ophthalmology domain.

DERMATOLOGY

In the field of dermatology, Amico Yasna Pars is bringing high value service to society by exclusive partnership with world leading manufacturer "CYNOSURE", followed with rich portfolio of laser solution and body contouring devices from top manufacturers like "LASEROPTEK", "COSMOSFOT" and "ZIMMER". This is making Amico Yasna Pars number one company in Iran to provide a throughout high quality solution for any dermatology centers.

Superior quality in after-sales service

In the company, sales are only the first step to make a long-term relationship based on trust and providing comprehensive customer service. With this point of view and in order to provide widespread support, the company has implemented the Zero Downtime standard to provide the best customer service. According to this standard, along with an experienced team of technical experts and engineers, large-scale investments have been made to supply parts so that customers do not have to wait for full service at any time. Furthermore, if a device needs more time to service, providing a backup device will be another step to prevent any disruption in medical centers in order to respond to patients and clients.

Clinical team

Valuing the best practice methodology and the best outcome for the patient, Amico Yasna Pars has invested largely on development of specialized CLINICAL TRAINING TEAM, to ensure the best usage of devices and to bring excellent result for the patients.

Our clinical team is a true partner alongside the road with all of our customers to provide theoretical and practical training and a number of refreshment sessions throughout the year.

CYNO\URE®

Amico Yasna Pars (Pr.J.S.Co)

Product Overview

Always the right system for your needs:

Treatment variety made by Cynosure®

Elite+™

Alexandrite and Nd:YAG Laser

CYNOSURE®

The versatile Alexandrite and Nd:YAG concept that delivers fast results for all skin types

INDICATIONS

- Permanent hair reduction
- Facial and leg vessels
- Epidermal pigment disorders
- Age spots
- Sun damage
- Wrinkle reduction

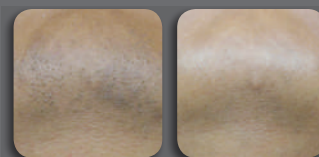

PRODUCT ADVANTAGES

- **Two wavelengths** - Alexandrite and Nd:YAG - **for treating all skin types**
- **Flexible use for several indications**
- **Several treatments can be performed simultaneously**

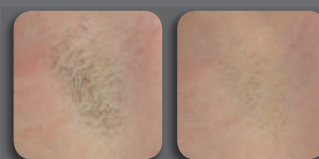

With Zimmer Air Cooling System

To further enhance client comfort, decrease the likelihood of adverse side effects and eliminating consumable costs, the Apogee is packaged with Cynosure's SmartCool 6 air cooling system that can be attached to the light weight, ergonomic handpieces.

Made in USA

Elite+TM

CYNOSURE[®]

Amico Yasna Pars (Pr. J. S. Co)

The flexible Alexandrite laser for fast and effective results, when treating unwanted hair growth and benign disorders of epidermis

INDICATIONS

- Unwanted hair growth
- Benign pigment disorders

PRODUCT ADVANTAGES

- Variable spot sizes
- Adjustable pulse width
- Flexible treatment options
- High fluence with large spots for intensive penetration and fast results

Permanent hair reduction

Nd:YAG Upgrade Kit Available

ENHANCE YOUR INVESTMENT

Apogee® can be easily upgraded to the Elite*

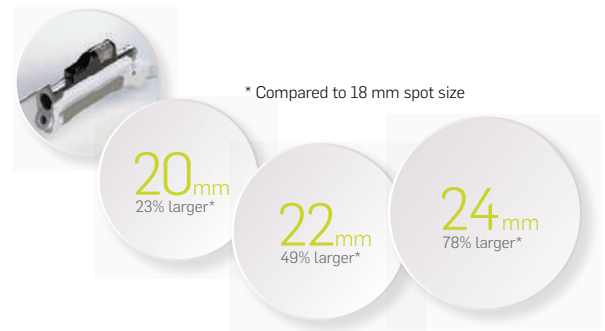

Expand your practice's treatment offerings by adding the 1064 nm Nd:YAG module for additional treatment options and more spot sizes to keep pace with evolving patient needs.

With **Zimmer** Air Cooling System

To further enhance client comfort, decrease the likelihood of adverse side effects and eliminating consumable costs, the Apogee is packaged with Cynosure's SmartCool 6 air cooling system that can be attached to the light weight, ergonomic handpieces.

Apogee+[®]

CYNOSURE[®]

Amico Yasna Pars (Pr. J. S. Co)

The Vectus® Laser provides high-volume permanent hair reduction for a wide range of skin and hair types - without sacrificing client comfort. Featuring the largest spot size and most uniform beam profile available today, the Vectus laser allows providers to quickly treat unwanted hair, even in the largest areas, such as the back, in less than five minutes

INDICATIONS

- Hair removal for all skin types

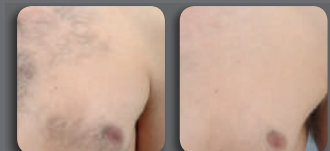

PRODUCT ADVANTAGES

- Intuitive menu navigation
- Procedure can be delegated easily
- No consumables
- Optimised energy recovery through Photon Recycling™
- High speed
- Integrated contact cooling
- Sapphire applicators of different sizes
- Powerful diode laser
- **Melanin reader device Skintel®:** A current reading of the melanin content in the treatment area is incorporated in the parameter configuration, making each treatment safer and more efficient

Permanent hair reduction

Maximum fluence	100 J/cm²	20 J/cm²
Repetition rate	Up to 3 Hz	Up to 3 Hz
Coverage rate	Up to 4 cm²/s	Up to 17 cm²/s
Maximum peak power	2200 W	3000 W
Electric requirements	100 - 240 VAC, 50/60 Hz (20 amp circuit required) Max Power Input 1100 W	
Size (H x W x D)	54 cm x 58 cm 103 cm, not including boom	
Weight	54 kg	

First Class Laser
Made in USA

Vectus[®]

CYNOSURE[®]

Amico Yasna Pars (Pr. J. S. Co)

Icon™

Multi-Functional Laser and IPL System

CYNOURE®

The multi-functional platform system using different lasers and flash lamps **for nearly all aesthetic indications**

INDICATIONS

- Permanent hair reduction
- Pigment disorders and vascular lesions
- Wrinkles and lines
- Skin tightening
- Acne scars
- Stretch marks
- Skin regeneration and rejuvenation
- Spider veins
- Melasma
- Scars
- Ablative skin resurfacing
- Non-ablative skin resurfacing

PRODUCT ADVANTAGES

- Large selection of treatment-specific handpieces
- Flexible adaptation to any addition to the practice
- Includes **Skintel®** - a revolutionary device that determines the average melanin index of skin prior to treatment. The patient's measurement is transmitted to the Icon platform via Bluetooth. The Icon automatically adapts its parameters to safely match treatment to the patients pigmentation level
- Extremely powerful and durable, advanced contact cooling™
- Large touchscreen with intuitive menu navigation
- Integrated patient database for storing all treatment parameters

TECHNICAL DATA

Systems	Nd:YAG laser, Erbium:YAG laser, Erbium:Glass laser, Intense Pulsed Light (IPL)
Max Power Input	1600 VA
Electric requirement	100 - 240 VAC; 50/60 Hz
Size (H x W x D)	103 cm x 58 cm x 54 cm
Weight	61 kg

For further technical data, see the specific handpieces on the next pages.

CYNOSURE®

Amico Yasna Pars (Pr. J. S. Co)

The **versatile flash lamp with extremely high performance** with short or long pulses

INDICATIONS

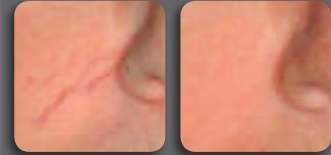

- **Vascular lesions** (Angiomas, telangiectasia, couperose, rosacea, port-wine stains, among others)
- **Pigmented lesions**
- **Skin rejuvenation**

PRODUCT ADVANTAGES

- **High performance** and safe application with patented SmoothPulse™ Technology
- **Large range of applications, especially for surface redness**
- **Parallel release of two wavelength spectra for a choice of superficial or deep penetration** (Dynamic Spectrum Shifting)
- **Efficient like a dye laser, according to clinical comparative studies**
- **Photon Recycling™ technology**
- **Integrated contact cooling**
- **Sapphire applicator**

TECHNICAL DATA

Handpieces for system	IPL
Wavelength	500 - 670 nm and 870 - 1200 nm
Spot size	10 x 15 mm
Pulse power	80 J/cm²
Max. repetition rate	2 Hz
Pulse duration	3 - 100 ms

First Class Laser
Made in USA

Icon™ 1540

CYNOSURE®

Amico Yasna Pars (Pr. J. S. Co)

The fractional, non-ablative Erbium:Glass laser **for skin and tissue rejuvenation**

INDICATIONS

- **Surgical scars**
- **Acne scars**
- **Stretch marks (striae)**
- **Wrinkles**
- **Pigment lesions**
- **Melasma**

PRODUCT ADVANTAGES

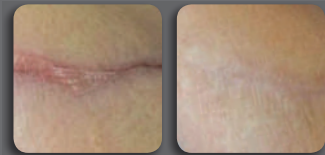

- **Fractional light output:** Hundreds of microscopic sized cylinders are lasered onto the skin - between these deliberately damaged areas of the skin lies untreated tissue, which will support patients in **a speedy recovery**
- **Quick structure regeneration for skin refinement**
- **Three different lenses available:** 15 mm, XF and for superficial, medium and deep resurfacing XD
- **First FDA laser cleared for the treatment of stretch marks**
- **No anaesthesia required**

TECHNICAL DATA

Handpieces for system	Erbium:Glass
Wavelength	1540 nm
Lenses	XF lens: 115 microbeams/cm ² XD lens: 49 microbeams/cm ²
Pulse duration pulse power	10 to 15 ms 3 to 70 mJ
Cooling	Sapphire cooling

First Class Laser
Made in USA

Cynergy™ MPX

CYNOSURE®

Amico Yasna Pars (Pr. J. S. Co)

The combined dye and Nd:YAG laser for efficient vascular therapies

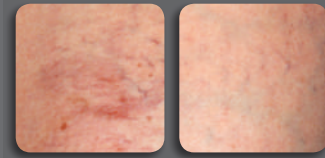

INDICATIONS

- **Vascular lesions of all types**
(haemangiomas/port-wine stains, strawberry marks, telangiectasias, rosacea and port-wine stains)
- **Spider veins**
- **Warts**
- **Scars and keloids**
- **Stretch marks**
- **Poikiloderma**
- **Pigment spots**
- **Epilation of darker skin types (Nd:YAG)**

PRODUCT ADVANTAGES

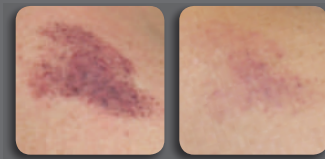

- Dye lasers are still the **“gold standard” in vascular lesion therapy**
- **All vascular lesions from red, superficial, to deep, blueish lesions** can be treated
- **Unique MultiPlex (MPX) pulsing:** sequential pulsing of both wavelengths - **for a gentler treatment with better, faster results**

Haemangioma

Revlite® SI & Revlite®

CYNOSURE®
Amico Yasna Pars (Pr. J. S. Co)

Revlite® SI and Revlite® provide the versatility to target **the full color spectrum of tattoo inks and pigmented lesions** with four different wavelengths

INDICATIONS

Removing all tattoo colors

Epidermal and dermal pigment spots, incl. melasma, nevus of ota, café-au-lait, solar and senile lentigines

Skin rejuvenation/fine wrinkles

Scars and acne

Sun damaged skin

PRODUCT ADVANTAGES

Very short pulse of 5 ns

Flat top beam profile **evenly distributes energy across the surface of the skin**

Effective on all tattoo colors with minimal side effects

Proprietary PhotoAcoustic Technology Pulse™ (PTP) mode **for optimal skin rejuvenation and toning with improved patient comfort**

Excellent therapy for pigment spots, especially melasma

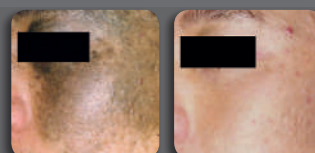

Proven reliability of the "gold standard" Q-Switched laser with industry-leading clinical evidence

PicoSure®

Focus™

CYNOSURE®

Amico Yasna Pars (Pr.J.S.Co)

PicoSure® is the only 755 nm/532 nm/1064 nm laser for aesthetic skin treatments and tattoo removal of all colors. PicoSure® Focus™ uniquely treats pigmented lesions, acne scars and wrinkles with impressive results without the typical downtime or discomfort. PicoSure® is the world's first picosecond aesthetic laser platform widely recognized for its technology leadership, clinical versatility and proven performance. PicoSure® has enabled clinical applications not available with any other laser

INDICATIONS

- **Tattoo removal*** of any color
- **Pigmented lesions***
- **Acne scars***
- **Wrinkles***
- **Skin rejuvenation**

(*FDA approved)

PRODUCT ADVANTAGES

- **Fewer treatments, faster clearance**
- **25 - 50% fewer sessions required vs. Q-Switched lasers**
- **Photomechanical efficacy, fewer side effects**
- **Proven performance across several indications**

TECHNICAL DATA

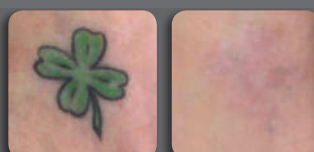

System	Alexandrite/picosecond pulsed
Wavelength	755 nm (standard) 532 nm (optional) 1064 nm (optional)
Pulse duration	550 - 750 ps
Pulse power	165 - 200 mJ
Handpieces	Zoom with continuous adjustment from 2.0 to 6.0 mm Additional fixed handpieces 6, 8 and 10 mm
Max. repetition rate	10 Hz
Pulse duration	550 - 750 ps
Electrical power	380 V~, 4,5 kVA, 50/60 Hz, single-phase
Electrical requirement	30 A
Size (H x W x D)	56 cm x 107 cm x 158 cm

SculpSure®

WarmSculpting™
with SculpSure®

CYNOSURE®

Amico Yasna Pars (Pr. J. S. Co)

The SculpSure® device provides WarmSculpting™ treatments for **non-invasive body contouring** that permanently reduces stubborn fat without surgery or downtime. WarmSculpting™ for the body (flanks, abdomen, thighs, and back) is intended for clients with a BMI up to 30. Patients contouring the submental area can have a BMI of up to 43

INDICATIONS

- **Fat reduction: abdomen, flanks, back, inner and outer thighs, submental**

PRODUCT ADVANTAGES

- **Fast, 25-minutes treatment per area**
- **Versatile applicators to fit a variety of body shapes and sizes**
- **No surgery, no downtime**
- **High ROI to increase your customers revenues faster**

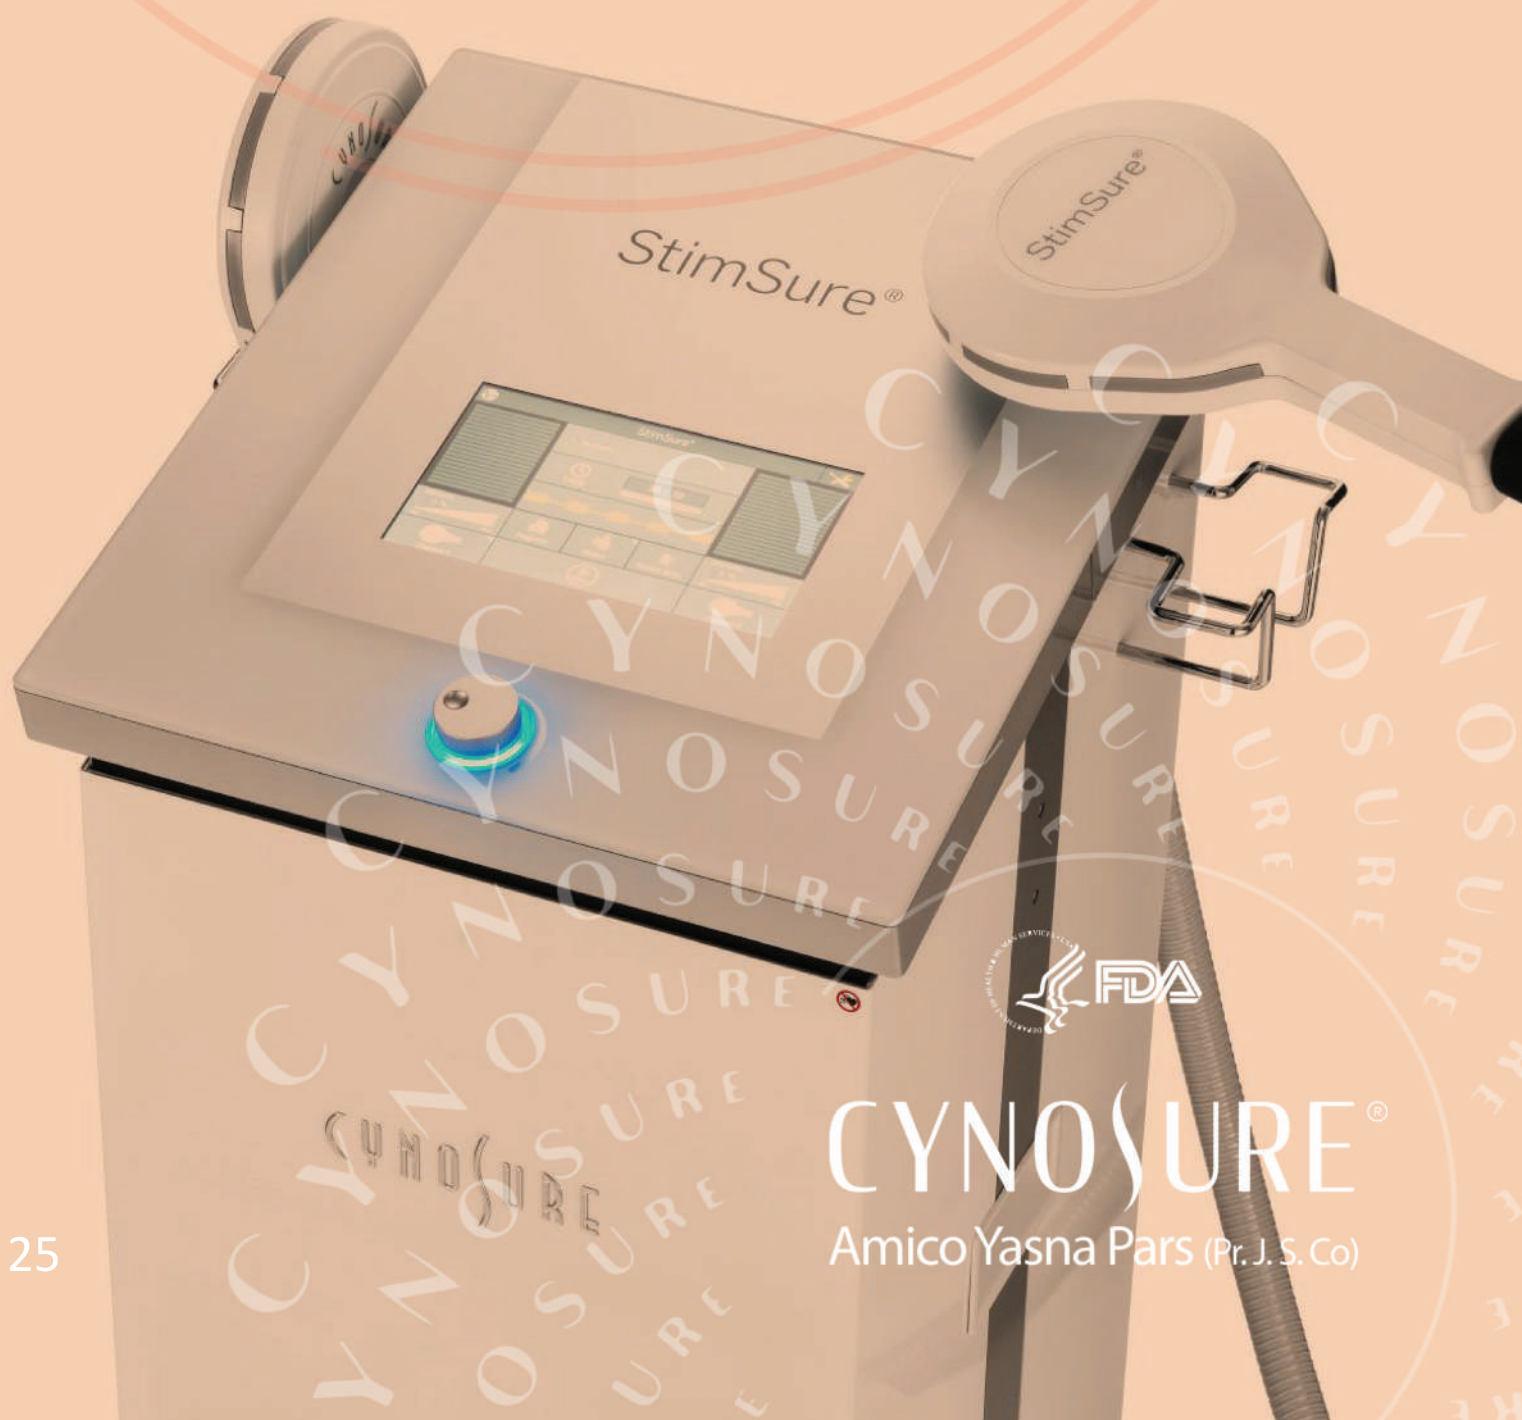

TECHNICAL DATA

System	Diode Laser
Wavelength	1060 nm
Pulse width	CW
Power output	40 W max per diode (160 W total)
Aiming beam	none
Electric requirement	230 VAC (20 amp circuit required)
Size (HxBxT)	144.8 cm x 61 cm x 91.5 cm" with arm, no umbilical loop 172.8 cm x 61 cm x 91.5 cm with arm and umbilical loop
Weight	118 kg with applicators 112 kg without applicators

StimSure®

CYNOSURE®
Amico Yasna Pars (Pr. J. S. Co)

StimSure is the state-of-the-art, non-invasive muscle building and toning technology from CynoSure. The new electromagnetic device delivers 24,000 full muscle contractions in just 20-30 minutes for natural-looking, consistent results.

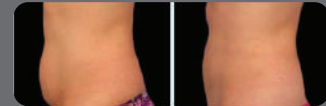

INDICATIONS

- **Non-invasive muscle building and toning: abdomen, buttocks and thighs**

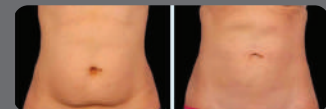

PRODUCT ADVANTAGES

- **1.0 Tesla per applicator, which enforces the highest contraction of muscle**
- **24,000 contractions during a 20-30 minute treatment session**
- **Consistent 100% full muscle contraction results in more efficient growth of new protein strands and muscle fibres**
- **Pre-set and personalised programmes available for versatile treatments that are tailored to each patient**
- **Single applicator can be used, and an applicator arm is available**
- **Simple to operate with a secure fixing belt**
- **Can be operated through light clothing**

Bodyforming

Dimensions	542 (L) x 501 (W) x 993 (H) mm
Weight	About 60 kg
Operation	Magnetic field strength: - Channel 1: 0.5-1.0 T ± 20% - Channel 2: 0.5-1.0 T ± 20% Modes: - Programme mode: A1-A20 - Region mode: M1-M20 - Manual Mode: U1-U20
Sound Power Level	<70 dB(A)

The powerful Nd:YAG laser provides selective and lasting treatment of the structural causes of cellulite in deep layers of tissue

INDICATIONS

- **Cellulite**
- **Body Contouring**

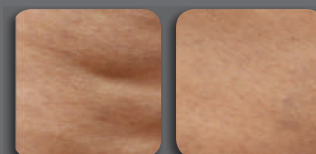

PRODUCT ADVANTAGES

- **Precise and long lasting results**
- **Minimally invasive**
- **Fights the three causes of cellulite under the skin:**
Smooths pads of fat, thermally separates fibrous septae and firms the tissue by stimulating the production of collagen and elastin crossing the hypodermis
- **Unique SideLaze800™ fibre with laser beam in 2 directions**

Cellulite, skin tightening

Weight	100 kg

First Class Laser
Made in USA

Cellulaze®

CYNOSURE®

Amico Yasna Pars (Pr. J. S. Co)

The Smartlipo® Triplex® is the “gold standard” of laser lipolysis. It is the only system featuring 3 wavelengths - 1064 nm, 1320 nm and 1440 nm. These wavelengths can be used individually or combined for so-called MultiPlex™ technology. Optimal results are achieved together with the unique SmartSense™ (movement control) and ThermaGuide™ (temperature control)

INDICATIONS

- **Controlled liposuction assisted by laser**

PRODUCT ADVANTAGES

By selecting wavelengths according to the condition and patient, Smartlipo® Triplex® offers:

- **Tissue tightening using soft tissue coagulation**
- **Reliable, controlled energy output**
- **A shorter treatment duration and patient downtime**
- **Less bleeding and haematomas than classic liposuction**
- **Defined body sculpting**
- **Minimally invasive procedure**
- **Constant temperature monitoring**

Body contouring, liposuction and skin tightening

TECHNICAL DATA

System	Nd:YAG laser		
Wavelength	1064 nm	1320 nm	1440 nm
Pulse duration (max.)	500 μs	1000 μs	1000 μs
Output	40 W	24 W	15 W
Max. repetition rate	40 Hz	40 Hz	25 Hz
MultiPlex options	1064 nm and 1320 nm 500 μs and 1000 μs	1064 nm and 1440 nm 500 μs and 1000 μs 40 Hz and 25Hz	
Laser beam	40Hz red		
Electric requirement	230 VAC, 16 A		
Size (H x W x D)	95 cm x 50 cm x 65 cm		
Weight	100 kg		

First Class Laser
Made in USA

CYNOSURE®

Amico Yasna Pars (Pr. J. S. Co)

TempSure™

CYNOSURE®

Amico Yasna Pars (Pr. J. S. Co)

The TempSure RF platform is an expandable device that combines non-invasive aesthetic procedures with hospital-grade surgical capabilities in one powerful 300W, 4.0 MHz system. TempSure RF technology provides unparalleled versatility for diversification of in-office capabilities.

INDICATIONS

- Reduce the appearance of forehead wrinkles, frown lines, crow's feet, and smile lines and tightens skin
- Temporary reduction in the appearance of hair epilation, telangiectasia, and millium
- Reduces fine lines, wrinkles and tightens skin
- Reduse cellulite and fat tissue in abdomen, arms, buttocks and thighs.
- Smaller, hard to reach areas to improve local circulation

PRODUCT ADVANTAGES

TempSure *Envi*™

A gentle way to maintain younger-looking skin

TempSure *Firm*™

Deeply heats tissue and temporarily reduces the appearance of cellulite

TempSure *Vitalia*™

Temperature-controlled RF for women's wellness.

TempSure *Surgical*™

Delicate Cuts, Hospital-Quality Coagulation

The device's 4 MHz frequency creates less heat than competitive devices when cutting and coagulating tissue, resulting in minimal lateral thermal damage to surrounding tissues, and leading to a better aesthetic outcome.

TempSure *LidLift*™

TempSure *Revival*™

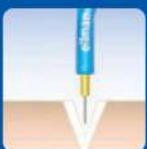

TECHNICAL DATA

System	TempSure™ Radiofrequency (RF) Generator
Display	10 ± 1" diagonal w/touch screen
Frequency	4.0 MHz Monopolar
Output Power	MAX 300 watts
Face & Body Handpieces	10 mm 100-7027-110
	15 mm 100-7027-115
	20 mm 100-7027-120
	25 mm 100-7027-125
	30 mm 100-7027-130
Massage Heads	25 mm 100-7027-055
	30 mm 100-7027-056
Electric requirement	100 - 240 VAC, 50/60 Hz
Size (H x W x D)	30 cm x 46 cm x 55 cm (w/cart < 116 cm H)
Weight	15 kg

Surgitron® Dual™ RF 90 & 120

Surgical RF Generator

CYNOSURE®

The Surgitron® Dual™ RF 90 and Dual™ RF 120 devices with 4 megahertz (MHz) technology creates very little heat when cutting/coagulating tissue, resulting in minimal lateral thermal damage to surrounding tissues

INDICATIONS

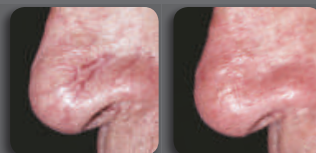

- Telangiectasias
- Moles
- Rhinophyma
- Blepharoplasties
- Several surgical procedures and elimination of skin lesions

PRODUCT ADVANTAGES

Precision - sculpt precise incisions in very thin, delicate mobile or tension-free tissues (e.g. eyelid skin, earlobe, labia, etc.)

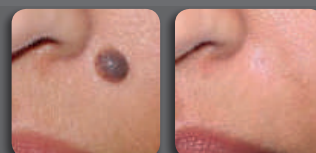

- Less burning or charring of tissues
- Enhanced tissue viability
- Excellent cosmetic results with minimal scar tissue
- Quick recovery
- Decreased post-operative pain

آمیکو یسنا پارس به عنوان شرکت پیشتاز در زمینه لوازم و تجهیزات پزشکی در ایران به شمار می رود. اگر چه گستره فعالیت این شرکت طیف وسیعی از تجهیزات پزشکی را در بر می گیرد، اما فعالیت اصلی آن لوازم و تجهیزات چشم پزشکی، مراقبت های بینایی و لیزرهای پیشرفته پوستی و پیکرتراشی را شامل می شود. نزدیک به ۲ دهه دانش و تجربه، تبحر، پشتوانه علمی و نیز حضور حمایتی در جامعه پزشکی، آمیکو یسنا پارس را به یکی از شرکت های برتر کشور تبدیل ساخته است به نحوی که بسیاری از برندهای معتبر در عرصه لوازم و تجهیزات پزشکی همکاری با این شرکت را فرصتی ارزشمند برای خود به شمار می آورند.

شرکت آمیکو یسنا پارس فعالیت خود را در سال ۱۳۸۱ آغاز کرد و دیری نپایید که با کسب نمایندگی کمپانی های معتبر و عرضه محصولات برتر به ویژه در زمینه های چشم و پوست به جایگاه ارزشمندی در کشور دست یافت.

مراقبت های بینایی

در حیطه مراقبت های بینایی بی تردید می توان آمیکو یسنا پارس را به عنوان شرکت پیشتاز به شمار آورد. از دوران کمپانی "CIBAVISION" گرفته که استاندارد طلایی کیفیت در لنزهای تماسی نرم به شمار می رفت تا بعدها که کمپانی بزرگ "ALCON" کمپانی نامبرده را به تملک درآورد و بر گستره کیفی و کمی آن افزود، آمیکو یسنا پارس همواره نمایندگی انحصاری این برندها را بر عهده داشته و بهترین محصولات را در این زمینه در اختیار متخصصین و مردم عزیزمان قرار داده است.

چشم پزشکی

در حیطه چشم پزشکی همکاری انحصاری این شرکت با کمپانی عظیم "JOHNSON & JOHNSON VISION" (که کمپانی "Abbott Medical Optics" را تحت تملک خود قرار داد) باعث شد تا جایگاه آمیکو یسنا پارس به عنوان یکی از شرکای اصلی ارائه خدمات در تمامی مراکز برتر چشم پزشکی تثبیت گردد. در کنار آن همکاری با تولید کنندگان تراز اول جهانی از قبیل "ALCHIMIA"، "HUVITZ"، "GEUDER" و "OPTOS" این شرکت را قادر ساخته تا با ارائه سبدي کامل از محصولات با کیفیت برتر بتواند جوابگوی هر نیازی در حیطه چشم پزشکی باشد.

پوست و زیبایی

در حیطه پوست و زیبایی، بی تردید عرضه انحصاری محصولات بزرگترین و معتبرترین کمپانی دنیا "CYNOSURE" آمیکو یسنا پارس را به انتخاب اول متخصصین پوست و زیبایی بدل کرده است. در همین هنگام ارائه کاملی از محصولات برتر از تولید کنندگان بنام جهانی نظیر "ZIMMER"، "LASEROPTEK" و "COSMOSOFT"، این شرکت را قادر ساخته تا بتواند مجموعه کاملی از تجهیزات در زمینه لیزرهای درمانی و زیبایی و دستگاه های پیکرتراشی و تناسب اندام، در اختیار جامعه محترم متخصصین قرار دهد.

کیفیت برتر در خدمات پس از فروش

در شرکت آمیکو یسنا پارس، فروش تنها مرحله نخست از ایجاد ارتباطی دراز مدت مبتنی بر اعتماد و ارائه خدمات همه جانبه به مشتریان است. با این دیدگاه و به منظور حمایت گسترده، این شرکت، استاندارد Zero Downtime را برای عرضه بهترین خدمات به مشتریان پیاده سازی کرده است. براساس این استاندارد در کنار تیمی کارآزموده و با تجربه از کارشناسان فنی و مهندسان، سرمایه گذاری در سطحی کلان برای تأمین قطعات صورت گرفته تا مشتریان در هیچ برهه زمانی برای دریافت خدمات کامل در انتظار نمانند. فراتر آنکه چنانچه علی رغم تمامی این تدابیر سرویس یک دستگاه نیاز به زمان بیشتری داشته باشد ارائه دستگاه پشتیبان گام دیگری برای جلوگیری از بروز هرگونه اختلال در مراکز درمانی در جهت پاسخگوئی به بیماران و مراجعین خواهد بود.

واحد آموزش کلینیکال

و این همه راه نیست. از آنجا که دانش کافی در استفاده از یک محصول از اهمیت بسیاری برخوردار است، واحد آموزش شرکت آمیکو یسنا پارس با آموزش های تخصصی در قالب مفاهیم تئوری و عملی به صورت مداوم در کنار متخصصین و کاربران دستگاه ها و تجهیزات در مراکز حضور یافته و کلیه نکات کلیدی و لازم را به طور کامل و در قالب جلسات ادواری آموزش می دهد.
